HOW TO USE YOUR XL UNDERGROUND METER BOX

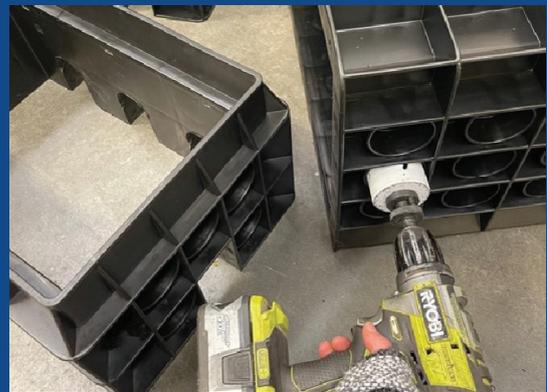

STEP 1

To make a pipe opening, cut the meter box to the height you require using a skill or jigsaw.

STEP 2

Drill out required hole using a 63mm / 2.5" hole saw.

STEP 3

To make a pipe opening, use a skill or jigsaw to cut out the flat sections of your pipe hole from Step 2.

RESULT

This is what your XL Underground Meter Box could look like.
